Our Mission Statement

Working together to provide quality care and a foundation for life long learning.

Values

First Step Pre-school values the trust parents/carers put in us to provide a safe, secure and stimulating environment that not only educates but also is fun. We strive to include everyone in a welcoming and friendly manner and provide an environment in which all children are supported to reach their full potential.

Vision

Our vision for our pre-school children is that we believe every child is an individual and we work to their individual needs which are reflected in our curriculum planning. We operate a policy of working positively on what a child can do to build their confidence, self-esteem and to encourage them to try new concepts.

We believe in the concept of learning through play and learning that is fun. Our pre-school room is a warm, welcoming, stimulating and safe environment, where we maintain a friendly professional team of staff working together with parents/carers and committee. We believe that a happy child will learn and will develop the ethos of school life and be confident to take that next big step.

Partnerships

Parents/carers are their child's first educators and as such are seen as partners, together we build a strong relationship to make sure the sharing of information is a two-way ongoing process. Parents need to feel welcome, involved and informed of their child's development. They need to know that their child will be treated as an individual and that their care and attention their child receives will be appropriate to their needs and the stage of their development. We strive to make ourselves aware of the cultures, backgrounds and family composition of all the families in our care.

To fulfil our Mission Statement we ensure we have effective policies and procedures in place.
